

Dear Honorable Congressperson (personalized in actual letter),

On behalf of the thousands of taxpayers who are facing financial ruin from the devastating effects of the Alternative Minimum Tax as it relates to the exercise of stock options, we wish to express our deepest thanks for your recent testimony to the Ways & Means Sub-Committee on Select Revenue Measures on this important issue.

ReformAMT with members in 47 states plus Washington D.C., Puerto Rico and 3 other countries has been working closely with other organizations, including the Coalition for Tax Fairness, to help fix this serious problem that is destroying tens of thousands of hardworking Americans. As you are aware, the passage of time has only increased the desperation for people who are now on the verge of losing everything they have due to a tax on “income” they never actually received.

We are extremely grateful for your support of our efforts to help restore a fair and just tax system for all Americans. Your efforts and leadership give our many members hope that our government will not continue to penalize those honest, hardworking taxpayers who complied with this self-reported tax and will soon see relieve from this egregious policy.

Our deepest appreciation and thanks, sincerely,

Jay Cena, co-Founder & Congressional Committee Chairman,
ReformAMT
